

```
model::Ghost::chooseFacing  
PacmanDirection
```

```
graph LR; A["model::Ghost::chooseFacing  
PacmanDirection"] --> B["model::Entity::getDirection"]
```

A diagram showing a call to `model::Entity::getDirection` from `model::Ghost::chooseFacingPacmanDirection`. The call is represented by a blue arrow pointing from the left box to the right box.

```
model::Entity::getDirection
```
